Industry Institute Collaboration Cell Committee

Standard operating procedure (SOP)

The industry institute collaboration cell (IICC) committee is formed with principal as chairman, staff, as members in the committee. The committee plans industry interactions, industrial visits and plans various training programmes regarding new technologies as per the requirements of industry. Committee meets every academic year atleast two times for planning and to monitor progress.

The industry institute collaboration cell (IICC) of the college aims the following.

1. Students visit industries frequently which give the exposure of work culture, new technologies in student's domain so that student can understand the industry requirements.
2. To collaborate with industries by making MOU's
3. Students are encouraged to undergo internships - IICC paves the path towards internships by consulting industries.
4. Planning workshops, industries expert talks for students and staff.
5. Plans faculty development programs for faculty members in emerging technologies.
6. Industry readiness in teaching students the latest technologies in Industry.
7. Plans to arrange industry expert talks and workshops.
8. Students visit industries frequently for the industrial training and learn about the latest technologies which help the students to understand the industry requirements.
